Combination between the Union Pacific R. R. and Panama Steamship Co.

NEW YORK, April 9—The new combination between the Pacific Mail the Union Pacific and the Panama Co is regarded as almost an accomplished fact. Yesterday there was an informal caucus of representatives of three corporations at the Pacific Mail Co.'s office—Russell Sage and George Scott representing the Panamas and Pacific companies and active Directors representing the Union Pacific. Advocates and promoters of these enterprises say their several interests will be subserved by equitable working arrangements, whereas a disastrous competition will be avoided in view of the proposed extension of facilities to outside organizations George Scott will go to Europe at an early date to make arrangements with English and German sub-Atlantic companies, with a view of benefiting the Panama Railroad Co Sydney Dillon regards the proposed combination as a desirable arrangement and says it is probable the agreement will be consummated.

RAILROAD BUILDING

The opening work on the Olympia and Tenino Railroad was done by the people last Tuesday The following account is from the Courier of Wednesday

According to previous announcement the public square was made the place of rendezvous, and at 8 A. M the pealing of bells and booming of cannon sent out their signals that the time for action had come In a short time a long column of men arrived with picks shovels and axes, led by the Olympia Band marched off the wharf and soon embarked for the scene of the contemplated day's operations—Warren's Point This is a point about half a mile below Tumwater on the west side of the Inlet, where the line of road will first reach tide water The depot will be at the west end of the Marshville bridge, and the road from there to the point above mentioned—a distance of about a mile—will be constructed on piles From the point a grade of 80 feet per mile carries the road up to the main street in Tumwater Along this grade on the hillside was where the work yesterday was done In the morning a scared wolf could scarcely have forced his way along the same route where, in the evening, delicate women and little children could promenade for nearly one fourth of a mile At 3 o'clock the work had fairly begun and then was seen a rare sight Earnest determined men, of all stations in life, vied with each other in their laborious task Judges clergymen, lawyers, doctors, merchants mechanics and laborers of all kinds were gathered side by side. And no child's play was indulged in The engineer said at evening that he had never seen such a day's work done by the same number of men There were counted at one time 185 men from Olympia at work and enough more from Tumwater to swell the number to a round 200 Some 30 Chinamen have been employed, and are now located on the ground with their little tents and usual camp equipage. A comfortable house for the quarters of the white men has also been erected and supplied with food tables and bunks One week from to-morrow—April 16th—has been selected for another rally, when it is expected that even a greater concourse will gather on the grade, and on May day the country is to meet the town at Bush Prairie. With heart and soul in the work what can not be accomplished ere that day rolls around The following telegram was sent this morning, and is self-explanatory

AFFAIRS, POLITICAL AND OTHERWISE IN BAKER COUNTY

BAKER GOOD FOR A LARGE INDEPENDENT VOTE

[illegible] March 20 1874

TO THE EDITOR OF THE OREGONIAN

I suppose that in the present condition of affairs a few lines from Baker county will not be amiss The Democrats and Republicans have both had their Conventions, and as might have been expected, they have followed the same old routine The present officers having the county in their pockets succeeded in getting themselves placed once more in nomination thinking that the old party ties would be strong enough to re-elect them—in which I think, they may possibly be mistaken as the dissatisfaction with the administration of affairs in this county is wide spread People are beginning to think and not only to think but to *think out loud* Baker county with its tax levy of three per cent, besides poll tax, with no improvements scarcely any roads and sinking deeper into debt from year to year with no hopes of a change is not a very bright prospect for the tax payer and producer to look at and all this for the support of a set of leeches that will never cry enough

But where is the remedy? It is in vain to look for it in the Republican party, for in the Convention true to its old instincts the question with regard to candidates was not honesty efficiency and morality but availability Just as though the stream could rise above the fountain It is vain indeed to expect men possessed of neither morality nor integrity to make good officers and it is equally vain to hope for their election because they are popular with the saloon keepers and gamblers The people of this county are watching anxiously the Independent movement in other parts of the State, and whether we have an independent county ticket or not the State ticket can rely on strong moral support and a large vote from Baker county

Our winter has been unusually long and cold the snow not being all gone yet Some cattle have perished from the cold and from lack of feed but the worst is over and losses have not been so great as was expected some time ago As the snow goes off the hill the spirits of the stock raisers begin to revive and the farmers are getting ready for spring work The unusual fall of snow will make a good mining season and the miners are preparing on every hand for the coming campaign in the hills gulches and flats of the placers and looking forward with hope for a remunerative season I think Baker County has a bright future if we can reduce [illegible] to a reason able figure [illegible] men and farmers can be induced to settle up our valleys and ranges And when the P R R and S [illegible] Railroad is built we will have the garden of Oregon

OLYMPIA'S NEW ERA

BREAKING GROUND FOR THE OLYMPIA AND TENINO RAILWAY—THE CITIZENS TURN OUT EN MASSE

OLYMPIA April 8 1874

TO THE EDITOR OF THE OREGONIAN

Yesterday was a day long to be remembered by our citizens as the dawning of a new future for us all and was celebrated in a becoming manner It was generally understood that on Tuesday April 7th the first ground would be broken initiating the commencement of our railroad to be known as the Olympia and Tenino Railroad and giving us railroad connection with the N P R R at the latter point According to previously issued notice all of the men—and I may as well also add all of the boys—assembled at the public square at eight o'clock A M amidst the ringing of bells [illegible] of the band and firing of cannon—or it would be more proper for us to say, salutes fired by the mule artillery

No doubt most of your readers have read the amusing account of the mule artillery practice at one of the frontier forts We have read the same in numerous periodicals but not until yesterday did we ever witness the amusing scene of a mountain howitzer or small cannon, strapped upon the back of a mule and fired thus mounted. And I will venture to say that mule was the only one who did not enjoy the festivities of the day

At about 8½ o'clock the procession moved headed by the band and followed by about one hundred and fifty of our citizens—consisting of judges lawyers doctors ministers merchants clerks tradesmen mechanics of all branches of industry gentlemen of leisure and of color and the juvenile portion of the community—each one provided with some badge of industry one with a shovel another with a spade, an axe grub hoe pickaxe or some other implement All proceeded to a point opposite the town and started with a determination to accomplish a large day's work Two hours afterwards the ladies of the town began to arrive in boats They brought with them large baskets of edibles. It was indeed a gay and festive scene long to be remembered by us and all were very agreeably surprised to see that we had graded during the day three-fourths of a mile and cleared the timber for a distance of two miles to our neighboring town of Tumwater The ladies furnished us a splendid repast at noon

During our repast we were addressed by Gov Ferry Capt McMicken and others, who made remarks suitable to the occasion and which were received with great applause by those present A great deal of work was subscribed by many who were there and it was resolved that the whole populace go out "en masse" one day in every week until the work shall be finished Engineer Morris remarked that the work accomplished would amount to the sum of seven or eight hundred dollars and also that had those who were employed been regularly hired to do the work not more than half the amount would have been accomplished

We neglected to state that business was entirely suspended during the day Even the saloons were closed We do not think that there was ever a railroad built under such circumstances and that it will be built no one seems to doubt In fact all have expressed the determination that it *shall* be built There will be from fifty to seventy five men at work daily and that much labor assisted by the whole populace once a week will grade the road through in [illegible] months, Already Olympia's prospects are brightening and as she is in the present so shall she be in the future the prettiest best located and most thriving place on Puget Sound

OUR MUNICIPAL ELECTION

Passed off quietly on Monday The issue was temperance and what the Good Templars termed the "whisky ring" It is needless to say that whisky won

To night there will be a ball given under the auspices of the married ladies, for the benefit of the School Fund It is to be a "hard times" party All are expected to dress in the oldest and most [illegible] clothes that can be procured

WALLOWA VALLEY

A HARD WINTER—CONDITION OF STOCK—SETTLERS WAITING FOR CONGRESSIONAL ACTION

WALLOWA VALLEY March 22 1874

TO THE EDITOR OF THE OREGONIAN

This is the first day anything like spring we have had The sun shines really warm and pleasant but the snow, which is sixteen inches deep yet refuses to yield to its influence It is the first snow which fell on the 29th day of November 1873, with all that has succeeded it up to the present time and is a dense and heavy body of snow The present has been a very mild and pleasant winter The cold has not been excessive, nor the wind distressing On the 10th of this month the thermometer indicated zero as the degree of cold

The winter has been longer than the one immediately preceding and herdsmen were not as well provided with hay as they might have been They were generally out about the middle of March then the steep bluffs with southern exposures were the only resort for flocks and thither they were driven They look very lean and some have died

We fail to discover in the doings of Congress anything relative to our valley Whether it will be surrendered to [illegible] or returned to the citizens we cannot determine but I suppose we will find out by waiting The order of the Secretary of the Interior giving the valley to the Indians has had the effect to stop all improvements and to put the citizens in a state of unwilling rest

We have no mail [illegible] valley [illegible] we will likely have a post office after awhile, when our mail facilities will be much improved

THAT NORTH CAROLINA VESUVIUS

THE TERROR STRICKEN PEOPLE FLEEING FROM THE WRATH TO COME

KNOXVILLE Tenn, March 30—On the 2d of February the noise had reached such a point as to be absolutely terrible Among the persons living on this mountain are Mr Camp, Johnston Elliott Noah Elliott widow Nanny George Morgan James Talbert and others From the statements of all these parties and of perhaps fifty others the mountain was actually shaking The moving was as if the entire mountain was giving away The table ware and the furniture in the house all rocked and jolted with frightful force It is said that the cattle have become alarmed and have wandered from their usual haunts Such was the alarm that at about 12 o'clock on the night of the 22d ult the people for miles around began to assemble at the house of a Mr Camp who having gone to the wood pile for wood became so alarmed that he fell upon his knees and began to pray aloud. Very soon the terrible quaking of the mountain was such that the great crowd now assembled engaged in prayer At daybreak on Monday morning George Logan a colored Baptist preacher was sent for in great haste and so impatient were they of his arrival that a portion of the crowd met him on the road beseeching him to come and pray and preach The people thus assembled remained in these devotions three days when they moved a short distance to a vacant house the property of Harris Elliott On the third day Billy Logan a white Baptist preacher was sent for and came immediately On March 11 J M Tumley a Methodist minister in charge of Broad River Mission was importuned to attend and preach and promptly complied with the request

From an eye witness the scenes are described as most strange and extraordinary The people came flocking in crowds of 15 and 20 including men women and children all presenting the most terrible state of fear despair and penitence On the day Mr Tumley preached the house was literally packed the preacher barely having room to stand So great was the rush to hear that many climbed up the side of the wall and crowded on the joists above Only a portion of the upper tier having a floor and many not being able to enter the house crowded their heads in at the doors, and manifested the most intense excitement When the call was made for mourners the people rushed from all parts of the house and from the outside with groans, fearful yells and fell upon the floor and upon each other all crying and supplicating in the most heartfelt and agonizing manner

These exercises continued incessant for sixteen days and night with but little intermission During this time the people all lived in common No attention was given to labor or property Cattle horses and hogs were turned to the woods and the entire people within the range of this awful excitement have concluded that they have but a few more days to live About 100 have made professions of religion The closing scenes of this strange meeting are represented as most peculiar and wonderful During most of this period of sixteen days the mountain had continued at intervals to give out the same alarming rumblings but having prayed shouted sung and agonized for this long period they separated with the promise that all would remain and die if necessary It is said that the awe stricken countenances the meek holy demeanor of this vast crowd on the breaking up of the devotions are beyond all description

A letter was received in this city to day by a gentleman whose mother resides near Bald Mountain stating that near the summit of that peak an area of nearly an acre was ruptured by subterranean upheavals and from which smoke and vapor issued

SUMNER'S MARRIAGE.—His marriage was the most unwise thing he ever did throughout his long and useful life Mrs Hooper was a very beautiful brilliant and greatly admired woman who moved in the [illegible] His position [illegible] not have been [illegible] Mrs Sumner [illegible] have been [illegible] forfeited her fortune [illegible] her husband was accustomed to reverence from everyone She found him an [illegible] only [illegible] society [illegible] thing she was devoted to gay life and drew around her a crowd of worshippers When Senator weary from his duties at the Capitol would at an early hour [illegible] order the carriage the madame was in the zenith of her enjoyment and I have been told of several remarks she was wont to make to him before people [illegible] to his pride [illegible] temper [illegible] the slightest control We cannot penetrate the causes which led to the estrangement for Mr Sumner never mentioned the matter after the separation but who can tell what he must have suffered His death so immediately following his wife's application for permission to marry again is by many thought to be the [illegible] the [illegible] his physician [illegible] that any sudden excitement would prove fatal [illegible] pity her the [illegible] she is probably in [illegible] to day

AN UGLY STORY.—Mrs Mary Clemmer Ames in one of her Washington letters to the *Independent* says that the gift of flowers sent by the colored attendants in the ladies retiring part of the Senate gallery for the coffin of Mr Sumner reached the room of Senator Cameron the same evening and was sent by him with his compliment to a lady stopping at a hotel She adds I would rather be Kate weeping for the despoiled offering to departed honor than the woman who received it or the Senator who sent it It bore upon the coffin a card with this inscription A tribute from Kate Brown to the martyred Senator who has gone to reap his reward I must believe that by some mistake it was carried to Mr Cameron's room But how in keeping that the man who despoiled the greatest Senator of his honors in his life should rob him in death even of the flowers upon his coffin

THE TERRITORIES

Olympia Grange Patrons of Husbandry now numbers more than sixty members and is growing rapidly

The case of the Territory vs Edwin Ellis heard in Olympia a few days since resulted in his being found not guilty and he was immediately discharged

The effort to right the schooner *Idaho* has been abandoned for the present and she has been towed in shore near Esquimalt light and anchored in eight fathoms of water until something definite is heard from the underwriters

"Tape worm Charley" and "Appetite Jim" are the pleasing cognomens given a couple of hotel bummers who have bilked their landlord in Trinidad On being arrested and asked to show visible means of support both drew out a big roll of greenbacks

C B Smith of Boise City in trying the metal of his cayuse charger on the streets the other day was thrown and had his leg broken. On the same day at the same place a boy named Blake 12 years old, was thrown from a horse and had his leg broken also

One of the charges for which an U S officer was recently cashiered specified that on a certain occasion he entered a store in Sitka Alaska and seating himself on the floor beside an Indian squaw, took her pipe and smoked it Such conduct was considered unbecoming an officer and a gentleman

Farming in the counties east of the Cascades in Washington Territory is reported to be much heavier this season than ever before Eastern Washington has almost unlimited farming facilities and only lacks cheap transportation to the seaboard to make it one vast farm of unusual productiveness

The *Intelligencer* says Messrs Reed Brothers and six carpenters arrived at Port Madison on the bark *Tidal Wave* on Monday last from San Francisco It is their intention to immediately build a large barkentine at that place the dimensions of which will be as follows Length of keel 150 feet beam 28 feet depth of hold 14 feet She will be one of the largest vessels yet built on Puget Sound being 20 feet longer than the bark *Tidal Wave*

At the municipal election in Olympia last Monday, J C Ellis was chosen Mayor and A R Elder Justice of the Peace S D Howe and Rice Tilley were elected Councilmen from the First Ward Nat Crosby, Jr and T P McElroy from the Second and D S B Henry from the Third In the Third Ward J S Dobbins and F A. Hoffman each received 22 votes The total vote cast for Mayor was 236 Ellis had a majority of 72 over J. B Allen his opponent

From the Bellingham Bay *Mail* we learn that the Nootsack Indians object to being taken to the Lummi Reservation Last week they presented to Father Chirouse a numerously signed petition of the citizens bordering on the river which sets forth that the Siwashes are peaceably inclined, industrious and that their presence is mutually beneficial to both races. All of which is very doubtful to our mind The agent reports progress and asks Superintendent Milroy for further instructions

The Cheyenne *Leader* says the Indian Commissioners have left that city for the Red Cloud Agency In addition the *Leader* remarks—"To judge from conversation had with these gentlemen we may expect a good result from their labors provided the *hostile* Indians can be reached by them We have been assured that the Sioux will be given to understand that they must retire to and *stay* on their permanent reservation in Dakota Territory if they desire any aid in the future from the Great Father in Washington"

The Pueblo *Chieftain* says that a terrible accident resulting fatally happened on last Wednesday night between Las Vegas and Sapello Mr George Marshall the driver together with the conductor were on the outside of the coach and during the night the conductor took the reins and it is supposed that Marshall fell asleep he having been driving on extra work for several days In crossing a gulley Marshall fell forward and from his seat to the ground striking on his head and breaking his neck, which caused death almost instantly Mr Marshall was about forty five years of age and was the oldest driver on the Southern Overland mail route

SENATOR JONES' GREAT SPEECH.—A New York dispatch of April 2d says The *Evening Post* noting the debate in the Senate on finances says the particular point was the speech of Senator Jones of Nevada who surprised everybody by the soundness and eloquence of his argument He has hitherto been a silent member and people generally counted him as a nonentity Senator Morton found him a dangerous antagonist and quailed before the fire of the Nevada Senator Mr Morton attempted the old subterfuge of accusing California and Nevada of disloyalty because they looked with suspicion on the Government's unfulfilled promise to pay He wanted to know whether the Union would have been saved without legal tender notes and Jones answered promptly that without them it would have been saved at a cost of less than a thousand million

The *Statesman* says a gentleman from Linn county expresses the opinion that the wheat surplus of this valley for 1874 will be less than for the year 1873 He bases this opinion on the fact that less wheat is sown now than last year at this time several counties where he has visited this winter showing less area of ground in wheat than they did last year at the same time He takes the ground that the spring of 1873 was unusually favorable for putting in crops and the yield of all the valley counties unprecedentedly large which would make it less likely for the crop of 1874 to equal that of 1873

Greathouse has mysteriously disappeared for the seventh and it is hoped, the last time. Mr Al Coolidge, of Silverton received a letter from Mr Abner Allen who is now in San Francisco, in which he gives the particulars of his meeting with Greathouse at that place He says that while walking on the street one evening he met Greathouse, unexpectedly, but conversed with him only a few minutes The man told him that when he left Silverton he went a short distance up the creek and waded across going thence to some station on the railroad but did not state which one Here he got his breakfast and going to East Portland by the first train gave a man $25 to keep him until the steamer should sail After conversing thus far they separated since when neither Mr Allen nor the police of the city have been able to find him

A correspondent says A son of Mr J B Jinks living within one mile of Tangent station met with a terrible accident on the 8th inst While plowing it appears that he had stepped in front of the team for the purpose of adjusting some part of the harness that did not suit him, and finding that he was not tall enough to attend to it he called to his father who was working close by, to assist him The father, in coming to his aid unthoughtedly came up on the off side of the team, which frightened the off horse so that he made a plunge forward throwing the boy to the ground when both horses started to run passing over the boy without hurting him but when the plow came to him, the point caught in his left thigh and in that manner he was dragged nearly a quarter of a mile, lacerating his leg fearfully, before the team was stopped Dr Rice, of Albany was called to attend the case and he pronounces it a very severe wound, but with the utmost care the boy may recover This should be a warning to our farmers and farmer boys not to trust too much to the gentleness of teams, for in this case the team was an old and tried span and was never known to run nor get frightened before

The *Independent* says The Forest Grove Equal Rights' Club held its regular meeting on last Saturday, 4th inst Quite a number were out The principal feature of the meeting was the essay of Mrs Jammetta M Walker, the subject being God and my Right which was interesting and eloquent and also well read Mr C A Coburn read a poem bearing upon the subject of Equal Rights and C H Walker made a few remarks and quoted the language used by Mr G W Dimick of Marion county in the Temperance Convention held in Portland last week, which was that it was a shame that man made laws should compel women to go out and kneel down in the streets and pray, and to protect themselves and those dear to them, should have to plead so earnestly with the rum sellers to stop their death-dealing traffic Yet for all this, Mr W said that women were thus earning a right to the ballot just the same as the negroes earned their right by fighting so bravely in the late civil war, that women would soon have the ballot and use it for truth and the right A committee consisting of Mrs C A Coburn John Goodell and C H Walker, were appointed to furnish some literary exercises for the next meeting April 18th commencing at 3 o'clock P M All are invited to come

FRIDAY MORNING APRIL 10 1874

THE RING PLATFORM A FRAUD

The ring Convention at Salem must have thought the people of Oregon had no more intelligence than a band of Hottentots. Almost every resolution of their platform is directly contrary to their known practices. It is well known that the Federal officers at Portland fixed up the entire ticket and left nothing for the Convention to do but to ratify it and yet the Convention attempts by a resolution to make the people of Oregon believe the party is opposed to interference by Federal officers in State politics. It is a sham and a fraud. Doubtless a large number of the members of the Convention thought they were getting their feet on the necks of the Custom House ring when they voted for that resolution. Innocent souls! The resolution itself was cooked up by the ring to catch votes and was smuggled into the Convention as coming from a different source.

Doubtless many thought and still think that Tolman and Williams were nominated by the Republican Convention. Nonsense. They were nominated in Portland, by the ring, some weeks ago, Tolman having come all the way from Jacksonville to Portland in pursuance of an invitation from prominent members of the ring to fix things up. Day and date of the transaction could be given. The ticket is in the main a put up job and yet the Convention, in which and on which it was put up, denounces jobbery. Federal officers must not interfere in State politics, eh? Why, one of the most important places on the ticket—that of Superintendent of Public Instruction—is a Federal official. L. L. Rowland is to-day at the Malheur Indian reservation as United States Surgeon for the reservation. Is it possible that anybody will be deceived by the arrant humbuggery of this party, where every act gives the lie to its formal declarations?

BARGAIN AND SALE

It is understood that the nomination of E. M. Waite for State Printer by the ring ticket, was made in pursuance of an agreement between him and the ring managers to the effect that in consideration of the nomination he is to start a ring newspaper at Salem, with C. P. Crandall as editor, and run it through the campaign at his own expense, its continuation after the campaign to depend upon the question of his election. Is that the way the ring is reforming in the manner of selecting candidates for office? A job from the very outset, in which the money, to be paid by the people for the public printing, is to be used to run party newspapers. The ring organ at Portland, supported by the General Government, and a ring organ at Salem, supported by the State government. Bargain and sale of public offices even before nominations can be made. We shall be glad if events do not prove this report to be correct. If the paper be issued, that will of course establish the fact of the bargain. Wait and see.

WITHDRAWN FROM THE MARION CO TICKET

In a card published in the Salem *Statesman* of the 7th inst., Mr Jason L Royal, nominee of the Marion County Independent Convention for County Clerk, states that there is a doubt as to his eligibility for that office, by reason of his recent residence in Douglas county, and that, desiring to remove every obstacle to the success of a cause with which he is in full sympathy, he feels constrained to withdraw from the ticket. The Independent County Central Committee (G W Gray, John Minto and A J Monroe) have issued a call requesting the delegates to the recent Independent Convention to meet, either in person or by proxy at Salem, April 15th, at 10 o'clock A. M., to nominate a candidate in Mr. Royal's stead. The gentleman declining would have made an excellent officer, and we regret that his withdrawal was necessary. We hope the Convention will supply his place with a candidate equally acceptable to the people of Marion county.

It will be remembered that the New York *Tribune* nominated Charles Francis Adams on the day following Mr Sumner's burial. For this the Washington *Chronicle* calls the *Tribune* a "meddler" and asks the Republicans of Massachusetts to administer a withering rebuke to that journal. The *Tribune* says it don't know precisely how Massachusetts Republicans feel with regard to the withering rebuke business, but it thinks their last experience in that line was receptive rather than administrative, and not wholly unconnected with Simmons! But if they should feel disposed to attempt such an administration they can send to Washington and secure the services of a gentleman who is at home in the withering rebuke business—"a gentleman," says the *Tribune*, "who rebukes investigations in a very withering way and who on one occasion rebuked a corrupt person who gave him a five-thousand-dollar check with such withering effect that the corrupt person at once gave him another check for the same amount. As a Withering Rebuker he is such a complete success that Massachusetts had better send for him." To whom does the ill natured *Tribune* refer? It cannot be Senator Harlan—that Mr Harlan from whose turbid experience sprang the opprobrious epithet "Christian Statesman."

There is a vacancy on the Arkansas Bench. Judge Fox of the Eleventh Judicial District has been gathered to his fathers. He seems to have been annoyed at the disorderly conduct of one J R Aldridge an attorney practising in his Court and to have rebuked him. Whereupon the high-strung Southerner retorted in disdainful phrase. For this latter offence he was fined and sentenced to ten days imprisonment for contempt of Court. Aldridge's friends procured his release. Again he insulted the Court and again Judge Fox sent him to jail. Emerging therefrom the second time Aldridge procured a hot gun and started in search of the Court. Meeting his victim with the single remark "Now Judge Fox" he sent him to plead before the Supreme Court of the Universe. This method of dealing with sensitive judges seems to be a peculiar outgrowth of Arkansas law. Judge Fox is the second Circuit Judge thus murdered since November 1st. If Judge Durell can be spared by Mr Pinchback and Governor Kellogg it would be well to test the audacity of the Arkansas law and see if they would dare to make way with a third judicial officer. The experiment would be full of interest—to Durell at any rate.

A Missouri gentleman has been making a speech in Congress. His name is E. O. Stanard and he hails from St Louis. Stanard believes in a Supreme Being whose beneficent hand devised the water courses with especial reference to cheap transportation as may be inferred from these remarks which adorn the pages of the *Congressional Record*:

"Mr Speaker, The Great Creator who dug out the ocean and piled the mountains high in air has spread out the most beautiful and extensive valley through the center of our country that there is on the face of the earth. * * * And the same beneficent Providence has provided this valley with more than 12,000 miles of navigable rivers to be as free to the people as the air they breathe and as universal in blessings as the sunlight."

The orator explained further that in these rivers there were a number of shallow places which had been overlooked at the time of the creation. He pointed out also the several places where the hand of man, after visiting the national treasury, can revise the imperfect work of the Great Creator.

The Chicago *Inter Ocean* publishes one of Senator Logan's forty-column speeches on finance and commends it to the careful perusal of readers as a complete refutation of the heresies and sophisms advanced by the specie resumptionists. And the *Inter Ocean* indulges in this superb piece of unintentional satire:

"It is worthy of the distinguished senator from Illinois an honor to the great State he represents and will meet with a hearty response of thanks from the mercantile community and the toiling masses of the whole country in whose behalf he speaks."

There are thousands among the toiling masses sorely freezing and starving in the great cities of the East who would consume Senator Logan's ponderous pamphlets with avidity and fervently bless him as they cuddle over the fitful blaze for his generous refutation.

The *Bulletin* has been for two years combatting with all the energy it could command the doctrine that the railway companies can be controlled by law. Now the Convention declares that doctrine is correct, and the *Bulletin* says all its utterances are sound. Only a few days ago the *Bulletin* ridiculed at length the resolution of the Marion County Independent Convention that Federal officers should not meddle with State politics. Now the ring State Convention reiterates the same sentiment, and the *Bulletin* says "all its utterances are sound." The State Convention declares Federal officers ought not to meddle in politics, and the *Bulletin*, the organ of ring politics edited by a Federal officer, says "all its utterances are sound."

We have received the prospectus of a new weekly paper to be published at Oakland in Douglas county the first number to be issued on Saturday April 18th by Thomas M Gale. The paper is to be called the *Umpqua Call* and its political course will be just about right as this extract from the prospectus proves:

The *Call* will be independent in politics and everything else. It will fearlessly champion the farmer and tax payer in his effort to overthrow the existing rings and cliques. It will earnestly advocate the producer's interests and uncompromisingly fight monopolists and corruptionists.

The Independent Convention of Grant county nominated for State Senator George W. McHaley; for Representative Bart Curl; for County Judge M Dustin; for Clerk J I Cleaver; Assessor, W B Davis; County Commissioners W Settlemire and E C Officer; Surveyor —— Clinkenbeard; Treasurer A Hacheney. The names of the candidates for Sheriff, Coroner and School Superintendent we have not learned.

The delegates to the State Convention are Peter Caris and Bart Curl.

It is very generally believed by the Eastern press that John Jay, Minister to Austria will resign his mission on account of Van Buren's triumph in the Senate. Since Jay preferred the charges of dishonesty and fraudulent practices which brought about Van Buren's removal from the Vienna Commission, it is difficult to understand how he can hold his office with any degree of comfort. The President and the Senate have slapped him in the face and it is time that he get indignant.

The Postmaster General has notified Congressmen that hereafter they will be allowed to place their autographs on printed books, pamphlets etc. sent through the mails without being compelled to pay letter postage thereon. Thus says the New York *Herald*, constituents may know who send their remembrances from the capital and His Satanic Majesty is flagellated around the postal stump.

There appears to be but one opinion of the ring ticket nominated at Salem. It is invariably spoken of as the weakest that has been nominated by any party for many years if not the weakest ever nominated. Men of prominence in the Republican party express themselves disappointed and say the election of any part of the ticket is simply out of the question.

DOUGLAS COUNTY INDEPENDENT CONVENTION

ROSEBURG April 4 1874

The Douglas County Independent Convention met at Roseburg pursuant to previous call for the purpose of electing delegates to attend a State Convention, to be held at Salem April 15th.

J D Burnett was called to the Chair and M M Oglesby chosen Secretary. R M Gurney, H Jones and A T Ambrose were appointed a Committee on Credentials from the report of which committee it appeared that 71 delegates were entitled to seats in the Convention, 56 of whom were present. The following gentlemen were then elected by acclamation as delegates to represent Douglas county in the State Convention: N Webb, J D Burnett, R M Gurney, H Conn Sr, Wm H Wilson, Fendal Sutherlin, M M Melvin, I G Young, N Cornut.

A permanent organization of the party for Douglas county was then effected by the election of the following gentlemen as a County Central Committee being one from each precinct: R B Ireland, George W Riddle, A T Ambrose, J C Drain, B Herman, I McKinney, I P Palmer, G S Hinsdale, J D Burnett, N Webb, H Beckley, I T Kent, James Chenoweth, H Flint, J Patterson and T Smith.

On motion [illegible] was elected Chairman of the County Committee.

The following motions were then unanimously passed:

Moved that this Convention desire the nomination of John Burnett of Corvallis for Circuit Judge of this Judicial District.

Moved that this Convention has entire confidence in Binger Herman and hereby requests him to accept the nomination of Prosecuting Attorney for this Judicial District which he declined and favored new men for nomination in this [illegible].

Moved that the Secretary be instructed to send a copy of these proceedings to the *Willamette Farmer* for publication.

A few short and appropriate speeches were then made by Messrs. Herman, Owens, Burnett and others, whereupon on motion the Convention adjourned.

M M OGLESBY Secretary

LINN CO INDEPENDENT CONVENTION

ALBANY April 7th 1874

To the Editor of the OREGONIAN

The Independent County Convention for Linn county met at Albany April 4th and elected the following named persons as delegates to the Independent State Convention to be held in Salem April 15th next: M C Callaway, H H Hewitt, W S Elkins, Frank Parton, F F Fanning, Riley Kirk, J H Lane, I B Roberts Jr, [illegible] Nixon, John Blevins, B Marks—six Democrats and five Republicans. C H Baker, W S Elkins and [illegible] Smith were appointed a County Central Committee.

The following resolutions were adopted:

Resolved That we heartily endorse the efforts now being made in the great temperance cause now agitating the county and different parts of the State in reforming the same and are in favor of appropriate legislation on the subject.

That we favor the election of [illegible] the county and State who fully endorse the above.

That we positively oppose the high salaries and [illegible] fees now existing in both county and State.

The Convention adjourned to meet May 2d to nominate a full county ticket.

The proceedings were requested to be published in the OREGONIAN and *Bulletin*.

A large attendance of citizens were present and bespoke the interest existing among the people which will result in a sweeping victory next June.

MEETING OF THE DISTRICT CONVENTION

PORTLAND Apr 16 1874

At a meeting of the Nominating Committee held the 1st day of March 1874 the following resolution was unanimously adopted:

Resolved That the Nominating Committee of the people of this county together with similar committees to be sent from the other counties of the Fourth Judicial District meet in Portland on Saturday April 11 1874, at 11 A M for the purpose of nominating a District Judge and District Attorney for the Fourth Judicial District. The basis of apportionment suggested will be one delegate for each [illegible] votes cast for Wilson and Burnett in 1872 and one additional delegate for each fraction of 36 or over. On this basis the respective counties will be entitled to the following representation:

Clatsop	[illegible]
Columbia	4
Clackamas	20
Multnomah	44
Washington	[illegible]

The other counties comprising this District are earnestly invited to send their delegations as above and when it is inconvenient for one or more delegation to attend it is suggested that those attending be authorized by their respective counties to cast the entire vote to which the county may be entitled.

In pursuance of the above resolution the said Convention will meet at the time therein named at Philharmonic Hall in Portland. All delegates to said Convention are requested to be present.

FRIDAY MORNING, APRIl 10 1874

CITY.

Juvenile Thieves.—Yesterday afternoon while a man was engaged at work at the corner of C and Seventh streets, he had a silver watch stolen from his vest pocket by a couple of juvenile thieves. The names of these boys are Daniel McMillan and Johnny Dougherty. They were observed to enter the stable where the man's vest was hanging while he was employed at work on the outside of the building. His attention was directed to the young thieves a few moments after they were observed to come out from the building and hurry away. Thinking that all was not right the man went in and looked at his vest. To his astonishment he discovered his watch was stolen. He rushed out and gave chase to the boys who were then more than a block distant and walking hurriedly off. As soon as they perceive the owner of the watch after them, than they broke and fled. A lively chase now ensued but the boys distanced their pursuer, being younger and more nimble-footed. Officer Barlow hearing the shouts, and perceiving the graceless knaves running for dear life joined at once in the chase. But they managed by superior tact to elude the officer. Dougherty took refuge in the block surrounded by Sixth and Seventh and Alder and Washington streets, and could not be found notwithstanding diligent search was made. McMillan ran on and hid somewhere about the Central School House and could not be found either. These boys had stolen a demijohn a short time prior to pilfering the watch. By a fortunate circumstance the owner recovered the watch. When closely pressed the thieves cast the watch to one side but in his haste and excitement the owner did not perceive it, and ran on after the culprits. A small girl passing that way soon after espied the watch lying near the edge of the sidewalk. She picked it up and carried it home. Her brother learning of the theft took the watch to the owner who he identified it at once. The watch is a plain one and valued at $50. These are the same boys who stole a baby carriage yesterday morning, but were obliged to disgorge on finding themselves pursued. On the night of the fire at Wilkers Soda Works they also stole four boxes of cigars, each box containing 100 cigars. Subsequently one box was recovered with one bunch of cigars missing. Both Dougherty and McMillan have been repeatedly before the Police Court on charges of petty thieving. Such instances of wanton juvenile depravity are sad to contemplate. Jails and penitentiaries are destined to be the future homes of such offenders, unless reformation speedily commences its work.

Stubbing the Toe.—Next in point of aggravation to running against a stove in the dark or stumbling over a wheelbarrow is stubbing your toe. Only yesterday we observed (with feelings of suppressed merriment) a well dressed gentleman, with polished boots and plug hat, an immaculate [illegible] shirt cane and "kids," with a broadcloth suit to keep pace with the general extravagance, stub his toe and leave his measure on the sidewalk. Oh, my countrymen, what a fall there was! Such a dusty pile of humanity and costly fabrics as arose, and such a stream of adjectives as would put the blush to the cheek of the average tract distributor. And if it has the rosy effect on a man what must the complexion of the fair ones be? There is one thing you can be sure of—that is the place. You can be sure that it will not occur out in the back yard. But just put on your redingote with two rows of buttons all down the front, sailor collar, cuffs and pockets, presenting a very jaunty and quite a military appearance. Step down town and trip gracefully along looking into the shop windows not to show any vulgar curiosity, but just glance along at the goods displayed enough to satisfy yourself and others that you are a judge of the articles. Perhaps you spy a friend just lifting his hat to you, when suddenly you pitch headlong in a manner that would be considered more remarkable than graceful. Your hat becomes animated and balances itself recklessly on your nose in utter disregard of the organs of sight. The agitation of your chignon is equaled by nothing except the agitation of your skirts, which present a warlike appearance of rushing to the front. To say that one is utterly demoralized would be to use a very mild expression. But there is one crumb of [illegible] if you happen to be a man. Should his foot unexpectedly come in contact with an immovable substance, he strikes out boldly, breaks his suspender, bursts a button, picks up his hat, dusts it with his handkerchief, mops his face with the same, all the while expressing himself in a little tropical language, and in utter forgetfulness of his early training. To say that he was profane would be most cutting sarcasm. We suppose without doubt, there is nothing so humiliating, demoralizing, aggravating and perfectly maddening, as stubbing one's toe and nothing but the perfect knowledge of five different languages could begin to express one's feelings or do the subject justice.

Sectional and County Map.—The "New Sectional and County Map of Oregon" published by J K Gill & Co, has just been placed on our table. This map was engraved and printed by Messrs G W & C B Colton of New York, and has been executed in the highest style of the art. The work has been performed in a most elegant and superb manner, and the class of workmanship displayed is of a character calculated to reflect credit on any firm. Of the general accuracy of this map we can speak in the highest complimentary terms. The map was compiled by a very skillful and experienced civil engineer from all the latest and most reliable Government surveys and its correctness may be confidently relied upon. The map is now ready for sale and agents will soon be out canvassing for subscribers. The map has been issued in two forms—one bound in pocket form at $2 and the other mounted on rollers and sold at $4. It contains the latest land surveys in townships and sections, and shows the railroads, completed and projected, stage routes, extent of river navigation, coal and gold mines and the exact position of every city, town, village and postoffice in the State. The scene of the Modoc war, in northern California with its principal events is accurately mapped out. Annexed is a table of statistical information from official sources giving the mean and extremes of the temperature and rain fall in different localities of the State, the relative areas of agricultural timbered and grazing land, the average yield per acre, the exportations for the year 1873, and such other items as will give a correct idea of the climate, productions, resources and progress of this section of the United States. Among civil engineers and surveyors this map has [illegible] the highest encomiums and has unhesitatingly been pronounced the best and most reliable map of Oregon. On receipt of price [illegible], the pocket or wall map will be forwarded by express to any address. Orders should be addressed to J K Gill & Co Portland Oregon.

Sunday School Report.—From the [illegible] we learn that the following is the report of attendance etc at the Taylor street Sabbath school during the quarter ending March 29th. Average of [illegible] and teachers—January 374 February 334 March 384. Bible class—January 109 February 134 March 13[illegible]. Infant class—January 41 February [illegible] March 67. Transient visitors—January 13[illegible] February 42 March [illegible]. The average attendance for the lesson Sundays of the quarter has been 2[illegible]. The attendance at the [illegible] this quarter has been good, January 480 February 600 March 660. Average attendance at concert during the quarter was 527. The highest number present during the quarter at regular [illegible] was on February 22d 298, the lowest [illegible] January 18 176. North Portland Mission School. Officers and teachers—January [illegible] February [illegible] March 6[illegible]. Bible class—January 22 [illegible] Infant [illegible] 16 February 2[illegible] March 29. Officers and teachers engaged in this Sunday school are 7 all told and the total number of [illegible] during the quarter amount [illegible].

An Unlucky Painter.—This [illegible] Denver (Col) correspondent to the New Age Reporter, New York City. A painter named [illegible] Ingham who came here from Pittsburgh [illegible] after the strike in that city [illegible] a narrow escape from death on the 10th [illegible]. Walking on a bridge of the Rio Grande railway he was overtaken by a train. To avoid being run over he dropped through to the ground a distance of over forty feet. No bones were broken but he received some severe internal injuries. This is undoubtedly the Mr Gilling who was here some seven years ago. When last heard from a [illegible] in Pittsburg.

A Costly Breakfast.—One McGowan, a first class bummer in quest of a square meal strolled into the American Exchange a few mornings since and ordered a round for one. It was duly placed before him to which he did ample justice. Being without coin strategy was to be displayed in escaping the ever vigilant eye of Charley Perkins. Unfortunately for the free luncher Mr Perkins was in waiting for him. That person knowing McGowan's failure to liquidate for anything he procured and being desirous of ridding the premises of so unprofitable a customer he at once ordered him to vacate. The free luncher lingered. He was disposed to contest. Charles couldn't stand such nonsense and he let Mr McGowan have one, a regular sockdologer. Mac faced the music and once more he dropped under the heavy blows directed by Perkins. They closed and by some means McGowan got Perkins thumb in his mouth. Perkins managed to extricate a part of that thumb. Order was restored by the bystanders. Perkins admonished Mac [illegible] and that individual retired. Summing up: A free breakfast two knockdowns and the partial loss of a digit. Charles don't want any more customers like the one above mentioned.

Daily Boat to the Fisheries.—Beginning on Saturday April 11th (to morrow) the Annie Stewart and Dixie Thompson will run in alternate days as follows:

Saturdays—via Cathlamet and Clifton to Astoria returning on Mondays via Clifton and Westport.

Mondays—via Cathlamet and Brookfield to Astoria returning on Tuesdays via Brookfield and Westport.

Tuesdays—via Westport and Clifton to Brookfield returning Wednesday via Cathlamet.

Wednesday—via Westport Clifton and Knappa to Astoria returning on Thursday via Knappa Clifton and Cathlamet.

Thursdays—via Cathlamet to Brookfield returning on Friday via Clifton and Westport.

Fridays—via Westport and Brookfield to Astoria returning on Saturdays via Brookfield and Cathlamet.

Serious Fall.—Wm H Brackett the well known contractor met with a very serious fall on Wednesday afternoon. While engaged at work on a building the staging gave way suddenly precipitating him to the ground a distance of about 25 feet. He fell on a pile of timber and received some severe injuries. One arm and hand was badly bruised and cut by the force of the fall and severe internal injuries were sustained in the region of the side and breast. He suffered excruciating pain on Wednesday night. Internal hemorrhage set in soon after the accident and grave apprehensions were entertained for a time as to the results. We are gratified to announce that Mr Brackett's condition is much improved. He will be confined to the house for some time and it will probably be months ere he can use his injured arm.

The First Salmon.—To the Oregon Packing Company of which Jas W Cook is Manager and Vincent Cook (the same which is Post master at Clifton) is Superintendent, belongs the credit of making the first shipment of salmon for the present year. Last evening the Astoria packet brought up 175 cases of fresh salmon from the Cook Bros Fishery. These cases are to be shipped below on the steamer this evening consigned to F Morgan & Sons, San Francisco. As we said before this is the first shipment of salmon made the present season. The firm will in the same connection please accept the thanks of the Oregonian office for a case of these splendid fish. Although we have not yet sampled them we have not the slightest doubt as to the excellent quality of the same.

Frame Building.—Excavation has been commenced on the vacant ground just north of the Masonic Temple on Third street, preparatory to commencing the construction of a large wooden building. This structure will be erected by Hon H W Corbett. It will be 50x7[illegible] feet and two stories high. When finished the building will be used as store rooms on the first floor and as offices in the second story. Work will be crowded vigorously forward to completion and the building will be ready for occupancy by the first of July, if not before that time.

A Personal Explanation.—Isaac the colored man whose name was mentioned by Deacon Pogram in his letter published yesterday asks us to state in reply to the deacon that he *was* born a slave and *did* beat the gong at the Crusaders. Just why he wants this said we are at a loss to perceive but as the deacon referred to him, we suppose he is entitled to have this response made public.

About Stolen Items.—The *Independent* says three local brevities in this paper were stolen from that paper. Where did the *Independent* get the items which fill the fourth and fifth columns on the second page of his last [illegible] but bodily from the Oregonian? If the *Independent* throws pebbles we might hurl boulders.

Sudden Illness.—Dr J C Hawthorne while on the way out to his farm in Washington county, yesterday was taken suddenly and severely ill and had to be brought back to this city. His illness we learn was from disease of the heart, to which he is subject at times.

Temperance Meeting.—A grand temperance rally will be held at Lee's Chapel on Saturday next when a pleasant and profitable time is expected to be had. A temperance song will be sung by an "old settler" which will be worth hearing. Everybody is invited.

Will Assemble.—The delegates to the Grand Encampment of the Champions of the Red Cross will assemble this A M at 10½ o'clock at Good Templar Hall corner Third and Alder street.

RELIEF SOCIETY

Feeling that the public may be interested in the Annual report of the "Relief Society" we give a synopsis of the Secretary's report read at their meeting on the 7th inst. We enter upon our seventh anniversary with cause for thankfulness for our great prosperity. For although not burdened with money the Home has proved a blessing to many orphans through the faithful services of our Matron as well as other noble workers.

There are at present eleven inmates—ten children and one woman. A good work has also been done outside the Home. The Visiting Committee have visited and assisted during the year fifty three families. Our receipts have been as follows: Through the kindness of Mr Waldron the sum of $181 64 was raised among the gentlemen of Portland for [illegible] and building a fence in front of the Home. Receipts at a festival given by the ladies $1[illegible] [illegible] from the 4th of July Committee $13 40. Thanksgiving collection in Church $1[illegible] [illegible] $112 82 from the citizens of Portland [illegible] a large supply of groceries for the Home. Receipts of a concert $[illegible] [illegible] Baptist Church $1[illegible] [illegible] members [illegible] added to this several smaller sums making the total receipts for the year $[illegible] 00. Cash disbursed out [illegible] Home $[illegible] [illegible] The membership [illegible] number sixty three. The officers elected for the coming year are as follows: President Mrs [illegible] First Vice President Mrs A [illegible] Treasurer Mrs [illegible] Secretary Mrs [illegible]. The names of the Advisory and Visiting Committee can be published [illegible]

FLATTERING NEWS FROM THE CASSIAR AND STICKEEN MINES

The following news concerning the Cassiar and Stickeen mines we compile from the *Colonist*:

We have been placed in possession of several letters from the heart of the Cassiar gold diggings all of which speak hopefully of the prospects. The general impression is that a great gold field has been discovered but the writers almost to a man declare that there are already too many men on the spot and that work cannot be successfully prosecuted until May. A few had hit upon the expedient of thawing out the ground and washing it in [illegible] and were making from $10 to $30 per day.

[illegible] of Rath Bros claim on Deas Lake [illegible] Kelly struck valuable bar diggings. Several other parties had got good creek claims.

Mr Wm Jeffrey writes to Mr Chas Robinson from the H B Co's Fort on Stickeen river dated 13th March. The writer says that he and H Saunders and W Bruton had experienced great difficulties. The frost was severe, one half the party [illegible] while the other half froze. The difficulties in reaching Cariboo in early days was nothing to those encountered on the Stickeen. The snow was ten feet deep in places and two or three trips had to be made to get the stuff up on dog sleds. The weather was changing and a thaw had set in. Taylor and Clarke were left behind but the writer and party stood the hardships like bricks and had overtaken some men who left Victoria six days before them. Several miners were at the Fort sick or frostbitten. Mr White at the Fort was very kind to all.

A letter from a miner on Deas Lake says that he had been out prospecting. Snow covered everything and the ground was frozen but fires were built and the pay dirt thawed. Good prospects were had. Several large pieces of gold were found in the dirt. The writer says the country is rich.

Peter Cargotich writes to Mr Grancini under date of 16th March from Deas creek. He says he had secured a claim that prospected from ten cents to $1 50 to the pan and thinks mining operations will commence about the 1st of May. Allan Grant of Glengarry Canada, died in Cargotich's cabin. His complaint was heart disease. He had just returned from a prospecting tour and was telling about a rich claim he had discovered when he fell over dead. There were some 400 men in the diggings.

Rath's and other claims had been jumped, and trouble was anticipated. The Government agent was at Dease Lake. The arrival of Mr Vowell was anxiously looked for to adjust the difficulties.

The miners have held a meeting and decided to exclude Chinamen from the diggings. Two Chinamen had already gone in and are allowed to stay by promising to write to their brother Chinamen not to come up.

Men are engaged in cutting wood for steamer use and in getting out shakes for A Martin's new warehouses which are to be erected at Shakesville, head of navigation 9 miles this side of Buck's Bar.

Large quantities of goods are *cached* along the river banks and will not be moved until the ice is out of the river.

The supply of provisions in the mines is very short. Bacon is $1 25 per pound, flour $1 40 a pound, $2 50 per pound for tea and a rise anticipated. There are no provisions at Buck's Bar.

Mr A. Martin, to whom we are indebted for the above information brought down 150 ozs of dust.

The Olympia *Courier* says:

A letter from Mr Charles Potter at the "Great Portage on the Stickeen about seventy five miles from Dease creek" came to his wife in this city to day and she has kindly permitted a few extracts to be made. The writer says he and Mr. Shelton went in ahead of their companions and located claims for all and then went back to assist in getting in the sleds with provisions etc. The report of any one freezing to death in that region was false. Of course it had been cold weather but that was about over. It is yet hard to tell about the mines, the ground is frozen so hard that it takes a long time to prospect a claim. He would not advise any one to come up at present. All the men who were in there last fall say that the mines paid well. One man took out in one day, with a rocker nine ounces and fourteen dollars. There are about five hundred men in the mines and on the river coming up. All from this region are well—as the writer jocosely says "all right tough and dirty." Mr. Shelton has also received a letter from Lewis Shelton who is with the party that left this city. He says he can't tell any more now about the richness of the mines than he could before he started and advises any of his friends who may design going to the mines not to start till May.

AMUSEMENTS.

Notwithstanding a brisk April shower began at 7 P M last evening and has continued to descend until the time of this writing the attendance at the complimentary benefit tendered Madame E A Stevenson was very large, the hall being well filled. The programme as published was carried out in fine style all the participants sustaining themselves with credit. The Grand March by Faust was the opening piece and was well executed by Messrs Thielson Hatch Harris and DeFrans. Then followed [illegible] part song The Chafers sung well by Messrs Franklin Lancaster Morgan and Schuyler. Mrs Stevenson then favored the audience with a solo Tantum Ergo from Rossini in which she was enthusiastically encored and responded singing Sweet Home with an accompaniment played by herself. The violin solo by Mr Kay was good and received an encore. Mr Gates's rendition of Jim Smiley's Jumping Frog did very well but the piece is a little stale. The Watchman a part song sung by Franklin Hatch Schuyler and Lancaster was rendered excellently and was one of the best of the evening. The instrumental quartette from Mozart by Messrs Thiel and [illegible] Morse and DeFrans on the violin cello piano and organ was a fine effort. The duet from Blangini *Per valli per boschi* is sung by Mrs Stevenson and Mr Lancaster fully sustained the reputation which that lady and gentleman bear for skill in the musical art. Mr Lancaster also sang the White Squall very finely. Carl Bosco brought down the house by his illusions. Mrs Stevenson's finest effort during the evening was in her rendition of "When the tide comes in" with Prof Gans at the piano. Messrs Franklin Morse Morgan and Stroble furnished the gem of the evening in the beautiful song without accompaniment There is Peace on the Deep. The Wedding March from Mendelssohn concluded the evening's entertainment. We congratulate the fair beneficiary on the success of the occasion, and Mr DeFrans musical director on the results of his efforts on behalf of the lady.

RELIGIOUS INTELLIGENCE.

RELIGIOUS, LOCAL, PERSONAL AND GENERAL

[From the Sentinel.]

The annual election for the officers of the St Joseph's German Catholic Society will take place on Sunday, May 3d.

On Monday April 6th Right Rev A M A Blanchet promoted Rev J B Boulet to the Order of Subdeacon in the cathedral at Vancouver W T.

The Father Mathew T A and B Society contemplate giving a grand excursion and picnic during the ensuing month. A good time may be expected as the Society will spare neither trouble or expense to make it pleasant for all who may participate.

There will be religious instruction for children who have not yet made their first Communion, in the cathedral at four o'clock on every Monday, Wednesday and Friday until all who present themselves are properly prepared to perform that most important act of their lives.

PETITION TO THE COMMON COUNCIL.

The following petition has been circulated through the city for several days past which is addressed to the Common Council. We learn that it has been numerously signed, about one thousand signatures having been obtained up to date.

To the Honorable the Common Council of the City of Portland: Your petitioners would respectfully represent: 1. Section 38 of the City Charter, giving power to license bar rooms and drinking shops, clearly implies the power to refuse such licences. 2. Three-fourths of the taxation, pauperism, crime and suffering is caused by the sale of intoxicating drinks as the statistics clearly show. 3. The terrible evils of intemperance have been increasing in this city until homes are being made desolate, family ties severed and the youths of the city corrupted. Therefore your petitioners earnestly pray that such ordinances may be passed as shall tend to suppress the sale of intoxicating liquors in this city.

COUNTY TEMPERANCE CONVENTION.

The friends of the Temperance Reform in Multnomah county are requested to meet in the several precincts in the county and elect five delegates to attend a County Convention to be held in this city on the 25th of April 1874 to nominate county officers, and to elect seven delegates to attend the State Temperance Convention to be held in Portland on the 6th day of May, 1874. Lodges of Good Templars, Encampments of Champions Red Cross, Temperance societies, Churches, and all other organizations favorable to the temperance cause, are also earnestly requested to elect five delegates to represent such organization in social Convention, and all other counties are requested to do the same.

INTERESTING TO INVALID LADIES.

Harrisville Columbia Co N Y July 9 1873

R V Pierce M D

Dear Sir—Your favor is just recieved. I intended to have written to you several weeks since concerning the improvement in my health which is now very apparent. I have used one bottle of Favorite Prescription with the best results although I will admit I was somewhat discouraged after its use (for a short time only). I took it under disadvantageous circumstances—having the supervision of the house and during the house cleaning I was obliged through the incompetency of help to do more than I ought and of course suffered dreadfully, lifted when I ought not to have raised my hand and did all I could to bring order out of chaos—but upon laying aside all cares and continuing the remedy I find that after using less than one bottle to be so much benefited that I have discontinued the use with no return of the symptoms of which I wrote you. I have suffered terribly and what added to my distress was the consciousness of not procuring relief from ordinary sources, at times it seemed about impossible to stand, so great was the distress. All of those severe neuralgic pains have disappeared, they were so bad at times I could hardly walk without some external pressure. They seem to have left me like magic suddenly and have had no return, all other symptoms have been removed. Those very weakness and faintness have disappeared and I can go up stairs with comparative ease now. I would have informed you ere this of my improvement, for I appreciated it but I was fearful it was only transient benefit I was receiving but I think sufficient time has elapsed to consider the beneficial results permanent. Accept of my best wishes for your future success and your kindness in advising me.

Yours truly,
Mrs NETTIE SNYDER

Veterinary Surgeons all over the country are recommending *Sheridan's Cavalry Condition Powders* for the following troubles in horses—Loss of appetite roughness of the hair stoppage of bowels or water thick water coughs and colds swelling of glands worms horse ail thick wind and heaves.

A friend of ours who is chief clerk in the Government Dispensary says that no medicine chest is now complete without *Johnson's Anodyne Liniment*. We always supposed it was prescribed by law. FRIDAY MORNING APRIL 10, 1874

THE ALASKA SEAL FISHERIES.

INTERESTING DEBATE IN THE HOUSE ON THE APPOINTMENT OF A COMMISSIONER TO INVESTIGATE KOHL HUTCHINSON & CO

WASHINGTON April 2d

In the House to-day Conger of Michigan from the Committee on Commerce reported a bill authorizing the appointment of a competent person to obtain and report authentic information regarding the seal fisheries and fur trade of Alaska

Willard of Vermont opposed the bill as creating a new office which would in the two years for which it was created involve a cost of at least $10 000

Conger intimated that if Willard had not offered a resolution against it it would have been an indication of bad faith on his (Willard's) part He was against the bill in the interest of economy and yet he thought nothing of occupying the House with speeches at a cost of $800 an hour That gentleman would go down to his grave objecting and when he got to the other world he would object to angels treading golden stairs for they would wear away some of the golden dust [General laughter]

Beck said When the contract with the American Government was made for 100 000 seals annually there were something like 300 000 taken If an officer of the Government was to be sent there which he thought ought to be done, he should be an engineer—an army officer of high position and responsibility While the young man for whom this office was to be created was a man of education and acquirements, he would as soon think of sending a Southdown lamb into Texas to get wool as to send him to Alaska to watch the seal fisheries

Dawes of Massachusetts supported the bill and replied to Beck's objection to it He thought he would be repelled, and would have no facilities to obtain the desired information The Treasury Department proposed to send out a young man who had been on those shores for a year and a half and had acquired such intimate relations with the people as no other man possessed He would be able to bring back knowledge of the condition in which the waters are inhabited with fur seals and to tell the Government whether these contractors as Mr Beck had suggested had been taking 200 000 or 300 000 skins a year while they paid tax on only 100 000

Mr Schumaker of New York related how he had long ago formed a seal fur company how he sold their interest for $1 000 000 and how the monopoly was now owned by foreigners in Hamburg Frankfort and London He characterized it as one of the most gigantic swindles of the age

Osborn of Indiana, proposed an amendment to send an army officer in connection with this proposed Treasury agent but Conger refused to admit it and moved the previous question

The House refused to order the main question—ayes, 102, nays, 111—and the bill went over

A GRANGE BURIAL

HOW THE ORDER PUT AWAY THEIR DEAD

[From the Leavenworth Times March 8]

The first burial of a member of the Patrons of Husbandry with the honors of the Order that has come to our notice, took place day before yesterday in Kickapoo when the remains of Henry Bolin were consigned to their last resting place with all the pomp and funeral pageant of the Granger burial service Mr Bolin was a prominent member, and the attendance was very large some four hundred persons being present. The programme of the burial was about as follows

On leaving the residence of the deceased the hearse which contained the remains was flanked on either side by three pall bearers, who walked with uncovered heads and regalias draped in mourning. Following the hearse came the relatives of the deceased and, next marched the sisters of the Order, clad in full regalia. The brothers came next, and following them the vast concourse of people who had come from far and near to witness the ceremonies The remains were first taken to the church, where a priest went through a service peculiar to the Catholic church of which the deceased was a member When the exercises had been concluded, the procession took up its march for the cemetery, where the granger funeral rites were performed The coffin was placed on supports directly over the open grave, and remained there till the impressive and interesting service was concluded G B Coffin master of the Franklin grange, conducted the ceremonies

When the brothers and sisters of the grange of which the deceased was a member had assembled about the grave the Master read a selection from the burial ritual followed by a second selection by the Chaplain and then the members repeated slowly and solemnly the Lord's prayer, closing with a beautiful and appropriate hymn The brothers of the Order then stepped to the grave and threw into the opening several bouquets of flowers and evergreens, A short but powerful address was next delivered by the Chaplain While the coffin was being lowered a beautiful and soul inspiring hymn was sung and during the singing the sisters showered bouquets of flowers upon the descending coffin until it reached the box at the bottom of the grave The Master then sprinkled a portion of dirt thrown from the grave over the coffin, and the service closed with the solemn benediction of the Chaplain

Taken throughout the ceremonies were very beautiful and impressive This is the first burial of a Granger in the county, and, if we are correctly informed in the State,—that is, with the ceremonies of the Order

BUTLER'S JOKES—C C I writes to the Baltimore *American* from New Orleans General Butler has left engraven in enduring granite, several pungent jokes he perpetrated while in command of this city One of these is on the base of the equestrian bronze statue of General Jackson One morning, when the curses of the people were loudest and deepest a stone-cutter, guarded by a file of soldiers was observed in Jackson Square commencing work with his chisel No one knew in what way he was about to desecrate the monument of the hero of New Orleans and each letter was watched as it appeared on the base until the declaration which made him famous—"The Union must and shall be preserved"—was spelled out by the people A short time afterward the same workman similarly guarded approached the bronze monument of Henry Clay on Canal street, and soon was cut deep and distinct in the granite block, immediately under the foot of the statue the following extract from one of the greatest speeches of the Kentucky statesman "'If I could be instrumental in eradicating this deep stain—slavery—from the character of our country I would not exchange the proud satisfaction which I should enjoy for all the triumph ever achieved by the most successful conqueror Little did those who erected these monuments ever expect to see such inscriptions upon them; but although they gnashed their teeth at the time they now regard the inscriptions as not altogether out of place in view of the changes that have been wrought by fraternal war, The people have got use to them and now laugh at these grim jokes of the erratic Butler'

SINGULAR SUICIDE.—A special dispatch from Boston March 8th; says a man named Miller a resident of the town of Sharon has committed suicide in a most remarkable way. He did the act in the following manner At the head of a flight of stairs a block had been placed A scythe was arranged by means of a pivot and the point passed through an aperture into an adjoining room where a bag containing iron weighing 35 pounds was fastened to the point of the scythe by a chain. The weight was so suspended that when Miller placed his head on the block he could detach the weight which would bring the point of the scythe across his throat with great force By this extraordinary device the unfortunate man came to his death though after the bloody instrument of death had done its work he lifted it from his neck and staggered down stairs into the room where his body was discovered

KEATS' GRAVE—A correspondent writing from Rome says In the little old Protestant cemetery just outside the walls of the new is the grave of Keats, on which the dirt lies loosely as if placed yesterday A border of box or myrtle incloses it, and on the small white headstone one sorrowfully reads "Here lies all that was mortal of a young English poet who on his deathbed, in the bitterness of his heart at the malicious power of his enemies said let these words be engraved on my tombstone Here lies one whose name was writ in water '

Exchange on San Francisco at ½ per cent premium

Wheat in Liverpool [illegible] advices from San Francisco [illegible] California [illegible] club

There is [illegible] blame of the present depression of trade at the door [illegible] on the part of that [illegible] upon the currency question nor is there much doubt that this has been one of the principal causes of the dullness of which we have lately heard so much The *Financial Chronicle* of New York however considers that the complaints which reach us from all parts of Europe [illegible] indicate the existence of a number of auxiliary causes For example the [illegible] shows that in Germany the railways are suffering heavily from the increase in their working expenses which is one of the results of that [illegible] which has effected such an economic revolution in Germany since the war with France The depression of Stock Exchange values at Berlin has been very considerable ranging from twenty to sixty per cent and averaging upward of twenty five In England too there is a similar complaint of [illegible] languor almost all prices having more or less declined to a considerable degree while in France and Belgium also a like stagnant condition of affairs obtains It is impossible to attribute so general a decline in these countries to any other than general causes and hence whilst we think there is no doubt that the failure of Congress to act promptly on the financial question is one of the chief causes of the present business dullness it is pretty evident that there are other predisposing forces at work also

The Comptroller of the Treasury has just completed the report of the banks of the United States for the 27th of December 187[illegible] from which it appears that the number of banks was increased during the year to 1790 against 1940 in 1872 1730 in 1871 1648 in 1870 and 1618 in 1869 and that the capital has increased from 426 millions in 1869 to 495 millions at present The deposits have risen from 11 millions in 1869 to 40 millions in 187[illegible] They were 98 millions in 187[illegible] The decline this year is attributed to well known causes arising chiefly out of the panic and indicating a wholesome check to undue inflation of credits The deposits with redeeming agents were reported at 96 millions at the outbreak of the panic in September and at only 73 millions on the 26th of December the depletion of 23 millions having taken place by a very brief and violent drain The loans were reported at $944 [illegible] 000 in September and at the beginning of November they had sunk to $[illegible] 600 000 the whole loaning power of the banks having been thus diminished $166 000 000

Dull as trade has been since the beginning of the present year the exports of the staple products of the country have yet been in excess of the corresponding period for last year The exports from New York for foreign ports for the week ending March 17th were—exclusive of specie—$1 751 438 against $1 068 278 for the corresponding week of 187[illegible] and $[illegible] 81 903 for that of the year before The total exports from New York Boston Philadelphia and Baltimore for January and February of the present year amounted to $[illegible] 822 9[illegible]0 against $[illegible] 596 319 for the same months of 187[illegible] and $17 161 100 for those of 1872 an average increase over last year of nearly six and half millions or over twelve per cent while for the two years it is eleven and a half millions or nearly twenty five per cent—the increase in Philadelphia being nearly sixty per cent

According to the London *Bankers' Magazine* the circulation of the United Kingdom in August last was of Bank of England £26 120 2[illegible]0 private banks £[illegible] of joint stock banks £[illegible] 432 127 Scotland, £[illegible] Ireland £6,[illegible] making a total of £48,080 735 or in round numbers, $215 000 000—of paper circulation which is about one third the amount of our currency.

Home Produce Market,

WHEAT—The latest advices from Liverpool indicate an advance of 2d@4d since a week ago but the San Francisco market is still unchanged and reported dull at current rates Tonnage is scarce at the latter port, which may account for the inactivity in the market Here we learn of very few transactions though receipts by boat during the week under review have been about 600 tons all of which has gone into the vessels in port Latest accounts from the East say the full effects of the [illegible] of European crops are now just beginning to be felt from New York Philadelphia Baltimore and Boston there is a constant shipment going on, and this in consequence of the failure of the customary sources of supply on the Continent will necessarily continue until the incoming of the new harvest. Prices have not changed since our last report quotations being still furnished at $1 60@1 [illegible]

FLOUR—Shipments of this commodity have been quite large, and owing to lessened receipts, the stocks on hand in our home market are not quite so large as last week. There is however an adequate supply for the current demand and standard brands of extra are still quotable at $[illegible] ₩ bbl common and outside brands of extra $5 50 superfine $[illegible] fine, $4 50

OATS—The California market shows some weakening tendencies, and a corresponding dullness is noticed here shippers not caring to handle the cereal largely under existing circumstances. The dullness of the demand is apparent in the diminished receipts as there is doubtless yet a considerable surplus in the interior but holders do not care to offer in the present situation of the market We quote good lots at 45 cents ₩ bushel

BARLEY—There is perhaps no more held in the State than will be necessary to supply the local trade until the new crop comes in The demand is now quiet at $1 40a1 45 ₩ cwt.

FEED—The stocks on hand rather exceed the current demand and as spring advances large lots are placed with more difficulty at current rates dealers not being willing to run the risks of an anticipated drop in the market The quotation are weaker but without any decided change

HAY—The supply is quite adequate to the demand and trade is duller owing to the advance of spring Wild is very dull sale at $8 ₩ ton while good timothy is in moderate request at $12@14

POTATOES—We notice no particular scarcity in the market though all choice lots offering are freely taken at current rates. Shipments to California are declining We quote best at 60c ₩ bushel with chances for an advance if sorted common lots 40@50c

ONIONS—There is a better supply than last spring and prices are weaker though choice lots are now in excess of the demand We quote choice at $1 [illegible] ₩ 100 lbs common $1 [illegible]@1 60

APPLES—The crop of '7[illegible] still holds out and a very fair supply is to be found in the market though many lots coming to hand are badly specked and sell at reduced rates For good sound lots [illegible] ₩ box is paid common [illegible]0c

BACON—The past week has witnessed a considerable decline in receipts and a consequent brisker demand more especially for hams which if extra fine country cured are worth [illegible] 18c ₩ lb sugar cured 20@22c Sides are in fair supply a [illegible] shoulders [illegible]10c

LARD—Oregon made is very scarce and if clean and sweet will readily sell in tins for 14@1[illegible]c ₩ lb in kegs 12@13c Eastern is selling at [illegible]

DRIED FRUIT—Still comes forward liberally and our former quotations are well sustained both for Apples in sacks and kegs and pitless Plums The former is quotable at [illegible] in kegs [illegible] Plums with pits dull at [illegible] pitless sell more readily at [illegible] @14c

BUTTER—We are still compelled to give a wide range to quotations owing to the varied quality of the many lots in the market Large quantities are to be had at almost any price [illegible] could not [illegible] Choice fresh for table use is worth 30a[illegible] ₩ lb common lots range all the way from [illegible]

CHEESE—The market is scantily supplied with choice Oregon made for which [illegible] freely offered by jobbers Best Cal about the same rate

EGGS—There is a full supply at present and prices are yet weak at 16c ₩ dozen Shipments are falling off and prices may yet go lower

CHICKENS—Receipts are not large and the demand rather exceeds the supply For choice lots [illegible] hens $4 [illegible] per dozen could be realized Common or mixed lots are quotable at $3 50@[illegible]

BEEF CATTLE—There is much complaint among buyers of poor lots offering, and such are marked down to the lowest possible figure For fat young steers the demand is brisk at [illegible] ₩ lb while many of the lots offering sell for [illegible] because of their inferior condition

MUTTON SHEEP—There are but [illegible] and quotations are nominal at $[illegible] ₩ head for fair lots

DRESSED HOGS—The [illegible] this nominal at [illegible] ₩ lb

TALLOW—Some shipments [illegible] Francisco have been unprofitable and the market is duller We quote at $6 ₩ 100 lbs

HIDES—Large receipts [illegible] the rule and we see the result of [illegible] in this branch of trade Prices [illegible] are firm at [illegible] for green [illegible] for green salted 11a[illegible] for dry and [illegible]

WOOL—Eastern and California advices [illegible] some activity in the market but [illegible] important information as to probable prices Our home market is bare of transactions and quotations [illegible] at 1[illegible] ₩ lb for common to best
